

Press release #6

Thursday 09/01/2025, Antwerp, Belgium

REFOCUS Project announces its 3rd Training School in Antwerp

The REFOCUS project (REthinking and FOstering Competence and skills for sUustainable transport, Shipping, and logistics) is proud to announce its upcoming Training School, to be held in Antwerp, Belgium, from 3rd to 7th February 2025.

Climate change, one of the most pressing challenges of the 21st century, calls for innovative and transformative solutions. The Training School in Antwerp offers a unique opportunity for participants, particularly those from underrepresented groups, to gain the critical skills and expertise needed to excel in and shape the future of a rapidly evolving transport, shipping, and logistics sector.

The programme offers a comprehensive educational experience, integrating six distinct courses that collectively prepare participants for the dynamic future of these industries. The programme will cover critical topics such as sustainability, resilience, big data analytics, climate neutrality, safety, collaboration strategies, and port innovation. With a strong focus on innovation, sustainability and collaboration, you'll develop the forward-thinking mindset essential for driving success and making a meaningful impact in this interconnected and ever-changing sector.

For more information, please do not hesitate to contact us or visit the project's website <https://refocus-project.eu/> and school website <https://www.uantwerpen.be/en/summer-winter-schools/sustainable-transport-shipping-and-logistics/>.
